- Eventide Dividend Opportunities Fund
- Eventide Core Bond Fund
- Eventide Limited-Term Bond Fund

AUM:

\$5.91B in net assets under management

There is no guarantee that the Adviser will meet its objectives. Total net assets as of 06/30/2022.

Eventide Multi-Asset Income Fund

Fund Objective

A: ETAMX | C: ETCMX | I: ETIMX | N: ETNMX

Seeks current income while maintaining the potential for capital appreciation

About the Fund

A diversified mutual fund representing our approach to current income, income growth, and long-term capital appreciation.

Benchmark

Multi-Asset Income Blend

Morningstar Category

Allocation – 50% to 70% Equity

Lipper Category

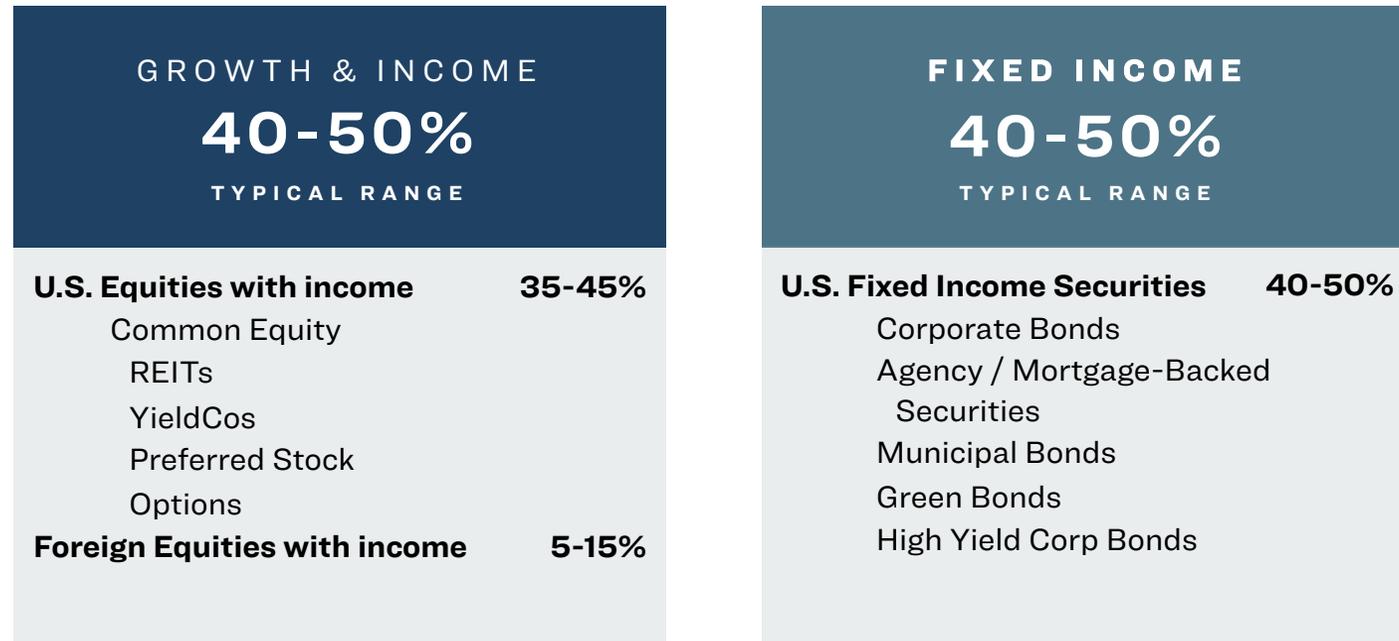

Flexible Portfolio

Total Net Assets

\$348MM (Inception date: July 15, 2015)

Total Net Assets as of 06/30/2022. The Multi-Asset Income Blend is a proprietary Eventide benchmark composed of 50% Russell Midcap Value Index and 50% Bloomberg U.S. Intermediate Aggregate Bond Index. The Russell Midcap Value Index measures the performance of the U.S. equity mid-cap value segment. The Bloomberg U.S. Intermediate Aggregate Bond Index is a market capitalization-weighted index, meaning the securities in the index are weighted according to the market size of each bond type. Most U.S.-traded investment grade bonds are represented. Municipal bonds and Treasury Inflation-Protected Securities are excluded. The index includes Treasury securities, Government agency bonds, mortgage-backed bonds, corporate bonds, and a small amount of foreign bonds traded in the U.S. There is no guarantee that the Adviser's approach will produce the desired results. All investments involve risk, including the possible loss of principal.

Balanced between equity and fixed income

Each of these asset classes has its own set of investment characteristics and risks and investors should consider these risks carefully prior to making any investments. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses. Does not include cash and equivalents.

Fund Distinctives

A Meaningful Multi-Asset Approach to Income

Growth and income balanced between equity and fixed income with a focus on total return.

Tactically Allocating to Asset Classes Favored in the Forward Environment

Dedicated to a balanced strategy between growth equity income (40-50%) and fixed income (40-50%) with a bottom-up quality investing and secular theme focus seeking to achieve consistent returns and lower volatility than the markets.

Creating Compelling Value for Society and the Global Common Good

Focused on identifying and investing in companies capable of increasing profitability, growth, and income distribution by serving well the needs of customers, employees, suppliers, communities, the environment, and society broadly.

The portfolio manager's views may prove to be incorrect. There is no guarantee that the Adviser's approach will produce the desired results. All investments involve risks, including the possible loss of principal.

Portfolio Management

Dolores Bamford, CFA
Co-Chief Investment Officer
Senior Portfolio Manager

Ms. Bamford serves as co-CIO for Eventide, and as Senior Portfolio Manager on the Eventide Multi-Asset Income Fund, the Eventide Dividend Opportunities Fund, the Eventide Limited-Term Bond Fund and the Eventide Core Bond Fund.

David Dirk, CFA
Boyd Watterson
Portfolio Manager

Mr. Dirk serves as Portfolio Manager for the Fixed Income Sub-Adviser. He is responsible for the strategy and day-to-day investment decision-making responsibilities within assigned fixed income allocation.

As of 06/30/2022.
For informational purposes only.

Eventide's Broader Investment Team

Finny Kuruvilla, MD, PhD
Co-CIO, Senior Portfolio Manager

Dr. Kuruvilla serves as Eventide's co-CIO, a Senior Portfolio Manager on Eventide's mid-cap growth and healthcare & life sciences strategies, and a Managing Director on Eventide's private fund.

Dolores Bamford, CFA
Co-CIO, Senior Portfolio Manager

Ms. Bamford serves as co-CIO for Eventide, and a Senior Portfolio Manager for Eventide's equity income and fixed income strategies.

Anant Goel
Portfolio Manager, Senior Research Analyst

Mr. Goel serves as a Portfolio Manager on Eventide's mid-cap growth and technology strategies, and as a Senior Research Analyst on other Eventide investments.

Kyle Rasbach, PhD
Managing Director, Senior Research Analyst

Dr. Rasbach serves as a Managing Director on Eventide's private fund, and a Senior Research Analyst on other Eventide investments.

Andy Singer, CFA
Portfolio Manager, Senior Research Analyst

Mr. Singer serves as a Portfolio Manager on Eventide's diversified equity income strategy, and a Senior Research Analyst on other Eventide investments.

Brian Chow, PhD
Principal, Research Analyst

Dr. Chow serves as a Principal for the Eventide's private fund, and a Research Analyst for other Eventide investments, with research responsibilities for healthcare investments.

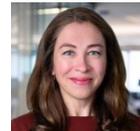

Jordan Baumhardt, PhD
Research Analyst, Associate

Dr. Baumhardt, serves as a Research Analyst for Eventide, and an Associate for Eventide's private fund, with research responsibilities for healthcare investments.

Westley Dupray
Research Analyst, Associate

Mr. Dupray, CFA, serves as a Research Analyst for Eventide, and an Associate for Eventide's private fund, with research responsibilities for healthcare investments.

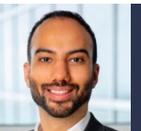

Faina Rozental
Research Analyst

Ms. Rozental serves as a Research Analyst, primarily responsible for evaluating and monitoring new and existing investment opportunities in the portfolios.

Christian Say
Research Analyst

Mr. Say serves as a Research Analyst, primarily responsible for evaluating and monitoring new and existing investment opportunities in the portfolios.

Reggie Smith
Research Analyst

Mr. Smith serves as a Research Analyst, primarily responsible for evaluating and monitoring new and existing investment opportunities, with a focus on clean energy.

Drew Bard
Research Analyst

Mr. Bard serves as a Research Analyst for Eventide. He is primarily responsible for evaluating and monitoring new and existing investment opportunities.

Nathan Akhavan
Associate Research Analyst, Associate

Mr. Akhavan serves as an Associate Research Analyst for Eventide, and an Associate for Eventide's private fund, with research responsibilities for healthcare investments.

Nicholas Liebold, CFA
Associate Research Analyst

Mr. Liebold serves as an Associate Research Analyst for Eventide, responsible for evaluating new and existing investment opportunities, with a focus on internet and technology.

As of 06/30/2022.
For informational purposes only.

Trading Team

Colin Delaney
Head of Trading, Portfolio
Specialist

Mr. Delaney manages all aspects of trading and implementation of the Firm's investment strategies and manages the trading desk.

Connor Kelly
Trading Specialist

Mr. Kelly works closely alongside the Head of Trading and the portfolio management team to help implement their investment strategies.

As of 06/30/2022.
For informational purposes only.

Business 360[®] Research Team

Tyler Frugia

Director of Business 360
Senior Quantitative
Developer

Mr. Frugia leads the development and implementation of the Business 360 Program and the development and maintenance of analytical tools for the investment team.

Brock Treworgy

Business 360 Analyst

Mr. Treworgy is responsible for research focused on how a business's management, ethical practices, and stakeholder value creation indicate and contribute to overall performance.

Ruben Walter

Business 360 Analyst

Mr. Walter is responsible for investment research into business management, ethical practices, and stakeholder value creation.

Dashell Laryea

Business 360 Research
Analyst

Mr. Laryea is primarily responsible for investment research into business management, ethical practices, and stakeholder value creation.

As of 06/30/2022.
For informational purposes only.

Investment Philosophy

We believe **high-quality companies** that excel at **creating value for others** and **trade at a discount to intrinsic value** offer superior long-term risk-adjusted returns.

The Adviser's judgment about the quality and intrinsic value of particular companies may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Investment Process

There is no guarantee that the Adviser's Investment Process will produce the desired results. All investments involve risks, including possible loss of capital.

Idea Generation

Start with themes, then identify companies best positioned for participation

- Understand the big picture of industries.
- Discern attractive long-term secular investment themes.
- Leverage consultants, industry experts, Key Opinion Leaders.
- Review industry specific reports, trends, and third-party research.
- Study competitors, suppliers, and customers of existing holdings.
- Identify companies best positioned for participation.

The Adviser's judgment about industries, secular themes, and particular companies may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Investment Themes

Themes poised to grow by serving society and human flourishing

- 5G and Data Infrastructure
- Beyond Moore's Law
- Business Intelligence, AI, and IoT
- Clean Energy
- Clean Water Technology
- Cybersecurity
- eCommerce
- Energy Efficiency
- Environmental Stewardship
- Evolution to the Cloud
- Financial Security & Access
- Food & Agriculture
- Green, Social, & Sustainability Bonds
- Health & Safety
- Healthcare & Life Sciences
- Home Ownership, Improvement, & Housing
- Supply Chain Efficiency
- Transport 2.0

These are representative examples of themes in the Eventide Funds. The Adviser's judgment about secular themes may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Qualitative Analysis

Look for “high-quality” companies

- Sustainable competitive advantages
- Great management teams
- Attractive industries
- Creating compelling value

SOURCES:

- Publicly available sources (10Ks, 10Qs, earnings reports, press releases, conference calls, proxies)
- Publicly available industry sources (industry organizations, government data, market research firms)
- Meetings with company management
- Independent research (expert networks; talking with competitors, stakeholders, and industry observers)

The Adviser’s judgment about the quality of a particular company may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

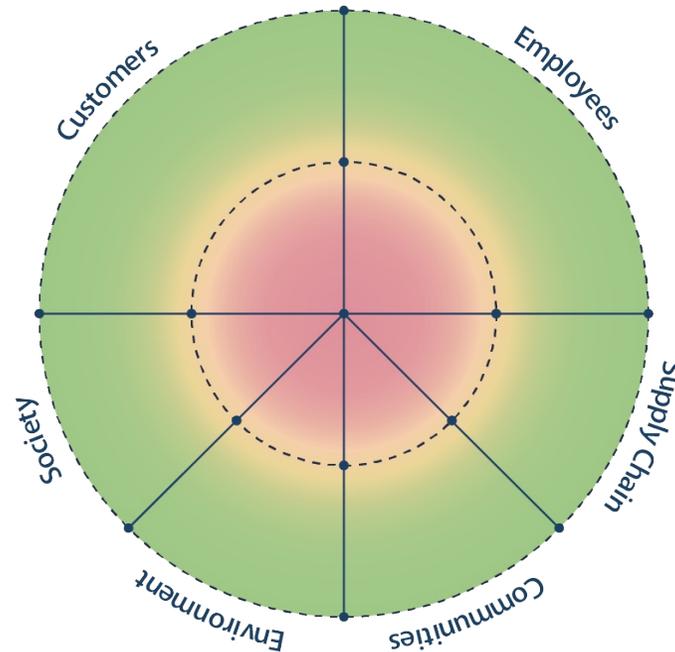

*Michael E. Porter, “How Competitive Forces Shape Strategy”, Harvard Business Review, May 1979 (Vol. 57, No. 2), pp. 137-145.

BUSINESS 360

The Eventide Multi-Asset Income Fund incorporates Eventide’s Business 360® framework to analyze companies across six key stakeholders often ignored by traditional finance.

We believe what’s right...

The goal of Business 360® analysis is to identify companies that excel at creating value for others.

...is also smart.

We believe those companies are thereby capable of sustained profitability and growth over time.

Reference to Eventide’s Business 360 approach is provided for illustrative purposes only and indicates a general framework of guiding principles that inform Eventide’s overall research process. The term “smart” is used for informational purposes only, and does not imply a certain level of skill or training by the Adviser. The Adviser’s judgment about the quality of a particular company may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Financial Analysis

Look for companies with long-term financial strength

QUALITIES:

- ✓ Attractive income generating characteristics
- ✓ Revenue and Earnings growth that is consistent and repeatable
- ✓ Stable business model
- ✓ Operating Margins that are stable or increasing
- ✓ Strong Balance Sheet
- ✓ Positive Free Cash Flow

- Analyze historical financial results and distribution policy.
- Model future financial results and distribution potential:

3-YEAR FORECAST:

- Income Statement
- Balance Sheet
- Cash Flow Statement

MODELING FUTURE RESULTS:

- Income Distribution potential
- Distribution Coverage
- Free Cash Flow

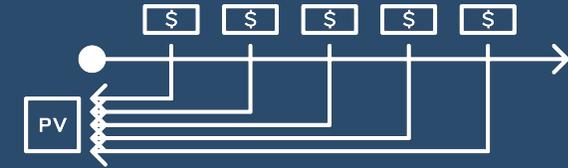

- Compare our estimates with market consensus to assess opportunity.

The Adviser's analysis may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Valuation Analysis

Look for securities with sustainable income potential

- Measure intrinsic value through Discounted Cash Flow (DCF) analysis.
- Build DCF model using forecast assumptions and then probability-adjust the calculated net present value based on our qualitative assessment of the company.
- Seek to identify securities with sustainable income potential that are trading at a discount to our estimate of intrinsic value.

We believe the best way to measure the intrinsic value of a company is with **Discounted Cash Flow** valuation analysis.

This takes into account the magnitude, timing, and risk of future free cash flows, discounted to today based on the company's cost of capital. It also takes into account the sustainability of its potential competitive advantages (reflected in the fade rate).

The Adviser's analysis may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Portfolio Construction, Risk Management

Construct portfolio, manage for risk

- Construct portfolio with goals of diversification across asset classes and diversification by income source while maintaining low correlation to broad equity and bond markets.
- Position portfolio using cash and other tools to allow security selection to mesh with our macro views at the portfolio level.
- Establish macro views through synthesis of three data streams: economic indicators, valuation metrics (including relative yield), and sentiment indicators.

There is no guarantee that the Adviser's approach will produce the desired results. All investments involve risk, including the possible loss of principal.

Eventide Multi-Asset Income Fund

Actively monitor portfolio

- Portfolio represents our approach to income and impact.
- Continuously monitor portfolio allocation and holdings, re-examining investment case.
- Tilt beta and asset class exposure based on macro and micro views.
- Adjust position size, estimates, and price targets to reflect changes in fundamentals.

There is no guarantee that the Adviser's approach will produce the desired results. All investments involve risk, including the possible loss of principal.

Sell Discipline

Continuously scrutinize investment case

- Investment thesis failure.
- No longer meets Eventide's Business 360[®] criteria.
- Price target achieved.
- More attractive use of capital elsewhere.
- Changes in outlook for income stability.

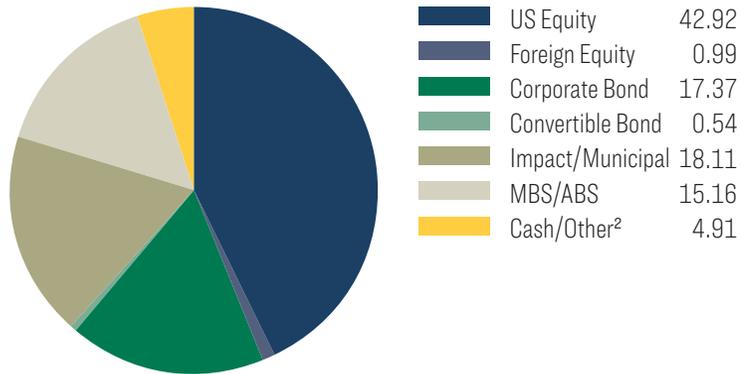

For informational purposes only. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Composition

A: ETAMX | C: ETCMX | I: ETIMX | N: ETNMX

Asset Class Allocation¹ (%)

30 Jun 2022

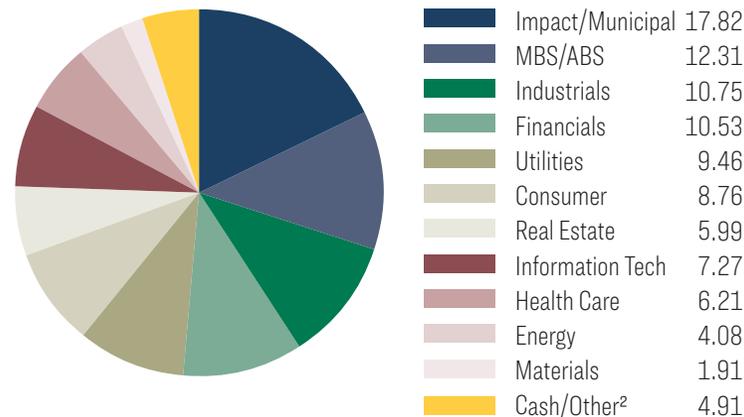

Annual turnover range³: 73%–110% (2019–2021)

Number of holdings: 157

Average Effective Duration⁴: 4.02 years

Sector Allocation¹ (%)

30 Jun 2022

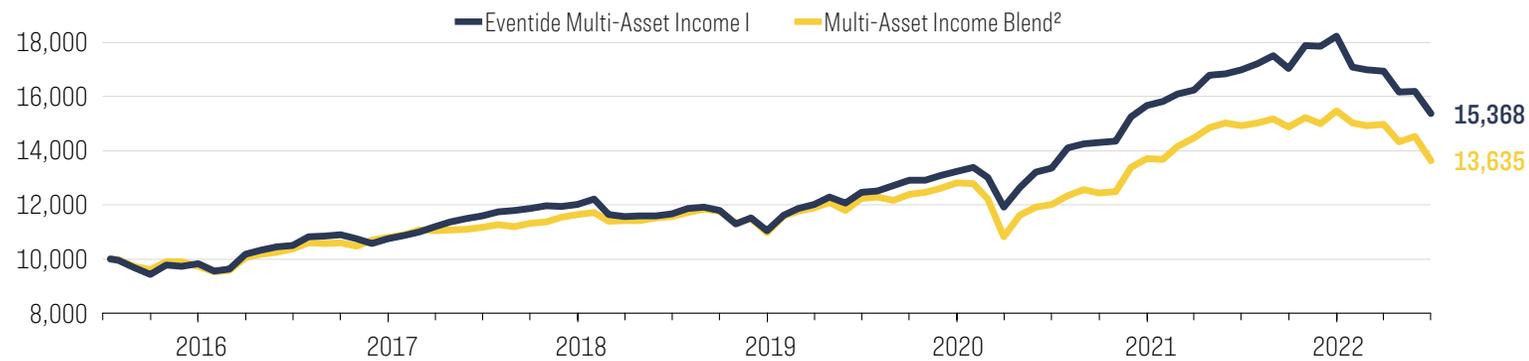

1. Allocation percentages are subject to change at any time, and should not be considered investment advice.
2. Includes cash, cash equivalents, money market funds, impact bonds and options. Impact bonds fund business models that strive to have significant social or environmental effects.
3. The range shows the highest and lowest turnover ratio reported in the Annual Report during the last three fiscal years, ending 06/30/2021. Portfolio turnover is the percentage of the portfolio that was bought or sold (lessor) during a fiscal year. A higher portfolio turnover may indicate higher transaction costs for the Fund, and may result in higher taxes for investors.
4. Average effective duration provides a measure of a fund's interest-rate sensitivity. The longer a fund's duration, the more sensitive the fund is to shifts in interest rates.

Growth of 10k

A: ETAMX | C: ETCMX | I: ETIMX | N: ETNMX

Growth of \$10,000¹

15 Jul 2015 – 30 Jun 2022

1. Compares the Eventide Multi-Asset Income Fund Class I's performance to index performance over the periods shown. Performance will differ for other fund classes, based upon fees and commissions. Prior to Q4 2020, Class N shares were displayed. The Growth of \$10,000 chart uses the Fund's inception date of 07/15/2015 for the indices. The returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption of fund shares. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes.
2. The Multi-Asset Income Blend is a proprietary Eventide benchmark composed of 50% Russell Midcap Value Index and 50% Bloomberg U.S. Intermediate Aggregate Bond Index. The Russell Midcap Value Index measures the performance of the U.S. equity mid-cap value segment. The Bloomberg U.S. Intermediate Aggregate Bond Index is a market capitalization-weighted index, meaning the securities in the index are weighted according to the market size of each bond type. Most U.S.-traded investment grade bonds are represented. Municipal bonds and Treasury Inflation-Protected Securities are excluded. The index includes Treasury securities, Government agency bonds, mortgage-backed bonds, corporate bonds, and a small amount of foreign bonds traded in the U.S. Please refer to the Fund's Prospectus for additional index details.

Eventide Multi-Asset Income Fund expenses: Class I, Gross Expenses 0.85%, Net Expenses 0.82%; Class A, Gross Expenses 1.10%, Net Expenses 1.07%; Class C, Gross Expenses 1.85%, Net Expenses 1.82%; Class N, Gross Expenses 1.05%, Net Expenses 1.02%. The adviser has contractually agreed to waive fees and/or reimburse expenses of the Fund through 10/31/2022. The agreement may only be terminated by the Fund's Board of Trustees on 60 days' written notice.

Performance is historical and does not guarantee future results. Investment return and principal value will fluctuate with changing market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Investors cannot directly invest in an index, and unmanaged index returns do not reflect any fees, expenses, or sales charges. The volatility of an index may be materially different than that of the Fund, and investors should not expect the Fund to achieve the same results as a listed index. Performance data current to the most recent month-end may be obtained by calling 1-877-771-EVEN (3836).

Eventide Multi-Asset Income Fund expenses: Class I, Gross Expenses 0.85%, Net Expenses 0.82%; Class A, Gross Expenses 1.10%, Net Expenses 1.07%; Class C, Gross Expenses 1.85%, Net Expenses 1.82%; Class N, Gross Expenses 1.05%, Net Expenses 1.02%. The adviser has contractually agreed to waive fees and/or reimburse expenses of the Fund through 10/31/2022. The agreement may only be terminated by the Fund's Board of Trustees on 60 days' written notice.

Performance is historical and does not guarantee future results. Investment return and principal value will fluctuate with changing market conditions so that when redeemed, shares may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Investors cannot directly invest in an index, and unmanaged index returns do not reflect any fees, expenses, or sales charges. The volatility of an index may be materially different than that of the Fund, and investors should not expect the Fund to achieve the same results as a listed index. This material must be read along with the Fund's prospectus, which may be obtained at eventidefunds.com/prospectus. Performance data current to the most recent month-end may be obtained by calling 1-877-771-EVEN (3836).

1. The returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption of fund shares. Because of ongoing market volatility, fund performance may be subject to substantial short-term changes.

2. Performance figures for periods greater than 1 year are annualized. Annualized since inception figures use an inception date of 07/15/2015.

3. In the case of investments at or above the \$1 million breakpoint (where you do not pay an initial sales charge), a 1.00% contingent deferred sales charge ("CDSC") may be assessed on shares redeemed within eighteen months of purchase. The CDSC for these Class A shares is based on the NAV at the time of purchase. The holding period for the CDSC begins on the day you buy your shares. Some intermediaries may waive or discount the CDSC under certain circumstances.

4. A 1.00% contingent deferred sales charge ("CDSC") may be assessed on C-shares redeemed within twelve months of purchase.

5. The Multi-Asset Income Blend is a proprietary Eventide benchmark composed of 50% Russell Midcap Value Index and 50% Bloomberg U.S. Intermediate Aggregate Bond Index. The Russell Midcap Value Index measures the performance of the U.S. equity mid-cap value segment. The Bloomberg U.S. Intermediate Aggregate Bond Index is a market capitalization-weighted index, meaning the securities in the index are weighted according to the market size of each bond type. Most U.S.-traded investment grade bonds are represented. Municipal bonds and Treasury Inflation-Protected Securities are excluded. The index includes Treasury securities, Government agency bonds, mortgage-backed bonds, corporate bonds, and a small amount of foreign bonds traded in the U.S. Please refer to the Fund's Prospectus for additional index details.

6. Represents the sum of all distributions from the period indicated. Distributions consist of dividend and interest income, capital gains, and/or return of capital. Shareholders should not assume that Fund distributions represent net profit. Income may be distributed regardless of whether such income will be treated as return of capital.

7. 12-Month Yield is the sum of a fund's total trailing 12-month interest and dividend payments divided by the last month's ending share price (NAV) plus any capital gains distributed over the same period.

8. SEC Yield is based on a 30-day (or one-month) period ending 06/30/2022 and is calculated by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. For more information see SEC Form N-1A, p. 56.

Multi-Asset Income Blend ³	11.60	9.09	1.00	1.00	—	—	100.00	100.00

1. Source: © Morningstar, Inc. (2022). All rights reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. The performance and risk factor comparisons are against the Russell Midcap Value Index. Prior to Q4 2020, Class N shares were displayed. Alpha is a measure of performance on a risk-adjusted basis. It takes the volatility (price risk) of a fund and compares its risk-adjusted performance to the Index. Any excess return of a fund relative to the return of the Index is a fund's alpha. Beta is a measure of the volatility of a fund relative to the Index. A beta greater than 1 is more volatile than the Index. R-Squared is a measure of how a fund's performance correlates with the Index's performance and it can help assess how likely it is that beta is statistically significant. Standard Deviation of return measures the amount of variation in historical performance from period to period.

2. Annualized since inception figures use an inception date of 08/01/2015 and not the actual inception date of 07/15/2015 as only full month data is used in Market Risk calculations.

3. The Multi-Asset Income Blend is a proprietary Eventide benchmark composed of 50% Russell Midcap Value Index and 50% Bloomberg U.S. Intermediate Aggregate Bond Index. The Russell Midcap Value Index measures the performance of the U.S. equity mid-cap value segment. The Bloomberg U.S. Intermediate Aggregate Bond Index is a market capitalization-weighted index, meaning the securities in the index are weighted according to the market size of each bond type. Most U.S.-traded investment grade bonds are represented. Municipal bonds and Treasury Inflation-Protected Securities are excluded. The index includes Treasury securities, Government agency bonds, mortgage-backed bonds, corporate bonds, and a small amount of foreign bonds traded in the U.S. Please refer to the Fund's Prospectus for additional index details.

Morningstar Ratings

TM

Overall Morningstar Rating™
Allocation: 50% to 70% Equity
(709 funds)

as of **June 30, 2022¹**
 based on **Morningstar Risk-Adjusted**
Return

1. Eventide Multi-Asset Income I class was rated 4 stars against 645 Allocation: 50% to 70% Equity funds for the 5 Yr period, and 5 stars against 709 Allocation: 50% to 70% Equity funds for the 3 Yr period, based on Morningstar Risk-Adjusted Return. Prior to Q4 2020, Class N shares were displayed.

Past performance is no guarantee of future results. Morningstar percentile rankings pertain to the I share class only; other classes may have different performance characteristics. Prior to Q4 2020, Class N shares were displayed.

The Morningstar Rating™ for funds, or 'star rating', is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Ratings are determined monthly and subject to change.

Morningstar Ratings

TM

**Allocation: 50% to 70% Equity
(5428 funds)**

as of May 31, 2022

Past performance is no guarantee of future results. The Morningstar Sustainability Rating and the Morningstar Portfolio Sustainability Score are not based on fund performance and are not equivalent to the Morningstar Rating ('Star Rating'). The Morningstar Sustainability Rating™ is intended to measure how well the issuing companies of the securities within a fund's portfolio are managing their environmental, social, and governance ("ESG") risks and opportunities relative to the fund's Morningstar category peers. The Morningstar Sustainability Rating calculation is a two-step process. First, each fund with at least 50% of assets covered by a company-level ESG score from Sustainalytics receives a Morningstar Portfolio Sustainability Score™. The Morningstar Portfolio Sustainability Score is an asset-weighted average of normalized company-level ESG scores with deductions made for controversial incidents by the issuing companies, such as environmental accidents,

fraud, or discriminatory behavior. The Morningstar Sustainability Rating is then assigned to all scored funds within Morningstar Categories in which at least ten (10) funds receive a Portfolio Sustainability Score and is determined by each fund's rank within the following distribution: High (highest 10%), Above Average (next 22.5%), Average (next 35%), Below Average (next 22.5%), and Low (lowest 10%). The Morningstar Sustainability Rating is depicted by globe icons where High equals 5 globes and Low equals 1 globe. A Sustainability Rating is assigned to any fund that has more than half of its underlying assets rated by Sustainalytics and is within a Morningstar Category with at least 10 scored funds; therefore, the rating it is not limited to funds with explicit sustainable or responsible investment mandates. Morningstar updates its Sustainability Ratings monthly. Portfolios receive a Morningstar Portfolio Sustainability Score and Sustainability Rating one month and six business days after their reported as-of date based on the most recent portfolio. As part of the evaluation process, Morningstar uses Sustainalytics' ESG scores from the same month as the portfolio as-of date. The Morningstar Portfolio Sustainability Scores and Morningstar Sustainability Ratings are new and it is anticipated that Morningstar will issue the scores and ratings monthly. The Fund's portfolio is actively managed and is subject to change, which may result in a different Morningstar Sustainability Score and Rating. % Rank in Category is the fund's percentile rank for the specified time period relative to all funds that have the same Morningstar category. The highest (or most favorable) percentile rank is 1 and the lowest (or least favorable) percentile rank is 100. The top-performing fund in a category will always receive a rank of 1. Percentile ranks within categories are most useful in those categories that have a large number of funds.

Morningstar Rankings

TM

Top 26% 1yr returns (755 funds)

Top 11% 3yr returns (709 funds)

Top 39% 5yr returns (645 funds)

Percentile Ranking, Allocation: 50% to 70% Equity for June 30, 2022, based on total return

Morningstar percentile rankings pertain to the I share class only. Prior to Q4 2020, Class N shares were displayed. Rankings are subject to change and may differ for other share classes based on fees and sales charges. Morningstar percentile ranking is an investment's total return percentile rank against others in its Morningstar Category, ranging from 1 (best) to 100 (worst). The ranking does not account for sales loads, where applicable. Past performance is no guarantee of future results.

Important Information

Mutual funds involve risk including the possible loss of principal. Past performance does not guarantee future results.

The Fund's ethical values screening criteria could cause it to under-perform similar funds that do not have such screening criteria. The Fund can have risk related to option investing. Investors in the Fund should be aware that interest rates may change at any time based on government policy. In general, the price of a fixed income security falls when interest rates rise. Longer term securities may be more sensitive to changes in interest rates. The intermediate-term bond portion of the Fund's portfolio may represent 0% to 100% of the Fund's portfolio with an average duration of between two and eight years. The Fund may invest, directly or indirectly, in "junk bonds." Such securities are speculative investments that carry greater risks than higher quality debt securities. The Fund can invest in smaller-sized companies which may experience higher failure rates than larger companies and normally have a lower trading volume than larger companies. There are unique risks associated with asset-backed securities, convertible securities, credit, foreign securities, hedging, income, LIBOR, MLPs, mortgage-backed securities, preferred stocks, prepayment, REITs, securities, U.S. Agency securities, and yieldcos that are covered in the Fund's prospectus and SAI.

This information is for use with concurrent or prior delivery of a fund prospectus, which can be obtained at <https://www.eventidefunds.com/prospectus> or by calling 1-877-771-EVEN (3836). Investors should consider a fund's investment objectives, risks, charges and expenses carefully before investing or sending money. Eventide Mutual Funds are distributed by Northern Lights Distributors, LLC, Member FINRA/SIPC, which is not affiliated with Eventide Asset Management, LLC.

Appendix

Values-Based Analysis

There are three dimensions to our approach to values-based investing:

AVOID

Create an investable universe of income securities that pass our screens, grounded in our values.

EMBRACE

Conduct original Business 360 research to find the highest quality income opportunities that contribute to human flourishing through value creation for society and other key stakeholders.

ENGAGE

Engage portfolio security issuers on our Business 360 values to advocate for positive change.

The Fund's ethical values screening criteria could cause it to underperform similar funds that do not have such screening criteria. This could be due to ethically acceptable companies falling out of favor with investors or failing to perform as well as companies that do not meet the Fund's ethical screening guidelines. Reference to Eventide's Business 360 approach is provided for illustrative purposes only and indicates a general framework of guiding principles that inform Eventide's overall research process. The Adviser's judgment about the quality of a particular company may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.

Investment Ideals

PROSPECTUS VALUES

- ✓ **Respecting the value and freedom of all people:** this includes the right to life at all stages and freedom from addictive behaviors caused by gambling, pornography, tobacco and alcohol.
- ✓ **Demonstrating a concern for justice and peace:** this includes fair and ethical relationships with customers, suppliers and business partners and through avoidance of products and services that promote weapons production and proliferation.
- ✓ **Promoting family and community:** this includes protecting children from violent forms of entertainment and also includes serving low income communities.
- ✓ **Exhibiting responsible management practices:** this includes fair-dealing with employees, communities, competitors, suppliers, and customers as demonstrated by a company's record regarding litigation, regulatory actions against the company and its record of promoting products and services that improve the lives of people.
- ✓ **Practicing environmental stewardship:** this includes practices considered more sustainable than those of industry peers, reduction in environmental impact when compared to previous periods, and/or the use of more efficient and cleaner energy sources.

The Fund's ethical values screening criteria could cause it to underperform similar funds that do not have such screening criteria. This could be due to ethically acceptable companies falling out of favor with investors or failing to perform as well as companies that do not meet the Fund's ethical screening guidelines. The Adviser's judgment about the quality of a particular company may prove to be incorrect. There is no guarantee that any investment will achieve its objectives, generate positive returns, or avoid losses.
